

Get stronger *at home*. No gym. No commute.

I am Jamal, a certified strength coach who comes to you, anywhere on the peninsula, for 45-minute one-on-one sessions built around your goals, your body, and your schedule. Belle Harbor, Neponsit, Rockaway Park, Rockaway Beach, Breezy Point, and Broad Channel.

I come to you

No gym membership, no driving, no waiting for equipment. We train in your living room with what you have, plus the bands and mat I bring.

Built for real people

Beginners welcome. Adults 30 and up who want to lose weight, get strong, and stay healthy. No intimidation, no judgment, no fads.

Careful and safe

I train around your injuries and limitations and progress you at a pace that lasts. Comfortable working with post-rehab and older adults.

One flat price

Pay per session. No packages, no contracts, no pressure. Try the first session and only keep going if it is worth it to you.

ON A GLP-1? OZEMPIC, WEGOVY, ZEPBOUND

Lose the fat. Keep the muscle.

Studies show that without resistance training, a meaningful share of the weight people lose on GLP-1 medications is lean muscle, not fat. I build training around protecting your strength and muscle while the medication does its job, so your results look better, feel better, and last. I never advise on medication. That stays with your prescriber.

Who is training you

CSCS, NSCA

CPR / AED certified

DrPH student, Johns Hopkins

MPA

25 years under the bar

Built the Lifteroo fitness app

\$75

per session

- ✓ 45-minute 1:1 session in your home
- ✓ A plan built around your goals and your body
- ✓ Form coaching and progress you can feel
- ✓ Pay per session: cash, Venmo, or Zelle

For referring providers (PT, primary care, med spa, chiropractic): I handle the training side only and coordinate with you on any limitations. I never give medical or medication advice. Happy to be a trusted, careful option for patients who need to keep moving and get stronger, and I refer back to you as well.
